

# We are the Operating Engineers... Building Solid Foundations

*North Shore Tunnel Project – Pittsburgh, PA*

From convenience stores, housing developments and site plans, to casinos, hotels and highways, we are here. For more than 100 years, Local 66 has partnered with you - our employers, to provide the best trained workforce that can build any job, small or large. And when you don't see us in hard hats, we are still here wearing many hats in our communities. We are baseball coaches, ministers, and firefighters. We are retired veterans, grandparents, and community leaders. We are the Operating Engineers of Local 66, committed to our communities; committed to being the best operating engineers in the region. We are here!

**International Union of  
Operating Engineers Local 66**
