

Certification Alert

We have seen an increase in school construction projects as of late. In order to work on these projects, individuals must have the proper clearances and background checks. This 3 step process can be completed online with the exception of the fingerprint requirement associated with the Federal Criminal Background Check. Fees associated with this process, totaling approximately \$42, are not reimbursed, but the potential for job opportunities outweigh the inconvenience and relatively small out-of-pocket cost.

If you already have these clearances, please let your dispatcher know immediately. If you are interested in being considered for school construction projects and want to obtain these clearances, please follow the links below:
